

H-TYPE VALVES

LEVER CLOSED

REPLACE YOUR DRAIN PLUG

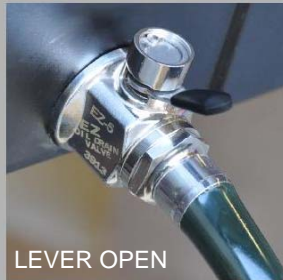

-Oil may be drained by turning the lever.
(No need to attach a hose)

LEVER CLOSED

CONNECT A HOSE (OPTIONAL)

-Drain oil away from the engine.
-May be secured with a hose clamp.

LEVER OPEN

OPEN THE LEVER TO DRAIN OIL

-Allows full control of the flow while draining oil.
-Allows stopping at any time.
-Easy to draw small oil samples.

WARNING!

Hose Ends on H-Type valves cannot be removed.

L-TYPE VALVES

The L-Type Valves are equipped with a 90 degree, adjustable Hose End.

-90° Hose End

-Adjustable Hose End rotates 360°

-Prevents hose kinking

-Perfect for limited clearance applications

-Secure the Hose End position with the built-in lock nut

NOTE:

NEW!
